

FINHAM PARK
SCHOOL

Welcome to Geography!

Our Geography vision:

For all students to acquire a sound knowledge base of both human and physical Geography. To develop an analytical and evaluative understanding of the world through discussion and written responses on case studies and topical issues.

Geography will enable you to ...

- Explore the complex relationships between the different components and elements that make up our earth.
- To probe the dynamic relationship between the natural and human world.
- Become a more socially and environmentally sensitive, and therefore informed and responsible, global citizen.
